"Thouas" First Book of Etemology has been in
stant use as a text-book in this institution nearly
cears, and we have derived from it most important
in the study of our language. He general clearness
accuracy, it to orthodocia arrangement, and its princ
of philosophical analysis and generalization, rend
in our view most happily adapted to the objects
which it was prepared.

Preserventan Synon.—The Kentucky Synod of the Presbyteriau Church continued its session at the Second Church yesterday. The report of the Trustees of Centre College at Danville was submitted and disposed of with the exception of the clause providing for a course of English studies for pupils who do not enter for graduation. It was determined to continue the practice until the next ennuel meeting of the Synod, at which time the question will be finally determined.

A resolution was passed thanking the citizens for hospitelities extended to members of the Synod, and the Louisville and Nashville Railroad Company for courtesies.
